

MATERIAL SAFETY DATA SHEET

HORTIMED HMP1 50/50

In accordance with E.U. Regulation 2001/58/EC it is not compulsory to make a material safety data sheet (MSDS) for this product. The technical data mentioned below are merely to be considered as guidelines for a correct use of the product.

MANUFACTURER

Hortimed SIA
Elizabetes str.2A, LV-1010
Riga, Latvia
www.hortimedpeat.com

TYPE NAME

Growing media (sphagnum peat)

RAW MATERIALS

Mixture of sphagnum peat, white block peat, black milled peat, limestone and sapropel (fresh water lake anaerobic sediment)

TREATMENT

Mixing, packing and palletising.

COMPOSITION

- Slightly decomposed high moor peat 35%
- white block peat 15%
- black milled peat 45%
- Hortimed Sapropel Additive 5 %
- limestone 7 kg/m³

85-95 % ORGANIC MATTER
pH 5,5 – 6,5
Moisture 50-65%

FORM

Homogenous mixture of 0-5 mm sieve setting

PACKING

50, 70 L original Hortimed bags.

The packaging mentions a batch number and a coded date. Through this unique reference number, the traceability of the raw materials can be guaranteed at all times.

APPLICATION

Growing media (substrate) for horticulture, tree nurseries, balcony boxes, containers and landscaping. Propagation of the plants with high nutrition requirement. 2-8 cm trays

FIRE FIGHTING

No risk of spontaneous combustion in closed packing.
All extinguishing agents are suitable.

EXPLOSIVE PROPERTIES

Not applicable when used under normal conditions.

HEALTH RISKS

Do not eat, drink or smoke during the application.
After use, wash and dry hands immediately.

STORAGE

No special requirements.

TRANSPORT

No special requirements.

ACCIDENTAL RELEASE

No special requirements.

The information provided in this document is accurate, reliable and drawn up to the best of Hortimed knowledge at the time of publication. This information is provided in good faith but without express or implicit warranty of accuracy and reliability. The information given is designed only as a guideline for safe use, processing, storage, transport, accidental release and disposal of residues and is not to be considered a guarantee or warranty of quality, since the conditions of the above-mentioned operations are beyond the control of Hortimed. The information in this document merely applies to the product mentioned above and does not apply to the use of this product in combination with other materials or processes unless specifically mentioned in this document. Hortimed rejects liability for loss or damage resulting from the use of this document. Nor does Hortimed accept liability for damage or injury resulting from abnormal use, noncompliance with recommendations or risks typical of the nature of the product.
