

**Mode of Action**

**COMPLIMENT** is a new generation surfactant based on organo-modified siloxane technology for use in water-based pesticide formulations. **COMPLIMENT** is a highly effective non-ionic surfactant / spreader / wetter / penetrant. **COMPLIMENT** effectiveness may allow the use of the lowest labeled pesticide rate.

**Dosage**

<b>Insecticide</b>	25ml - 100ml per 100L water
<b>Fungicide</b>	15ml - 50ml per 100L water

**Mixing Instructions**

Before mixing this product with pesticide of choice, a compatibility test is recommended in a small (1 quart) container to determine that the components of the tank mix are compatible. Add pesticides and/or fertilizers as directed by their label

**Direction for use**

Always read and follow the label of pesticide(s) and additive(s) to be used with this product. Always refer to the pesticide and additive label(s) for additional recommendation or precautions, follow the most restrictive label

**Note:** Application use rate guidelines are for use with pesticides whose labels recommend a non-ionic surfactant. Some pesticides may require higher or lower surfactant rates for optimum effect. Follow the pesticide label direction
