Construction Scope Of Work

PROJECT OVERVIEW		
Project Name	Renovation work of Existing toilet and addition of a new toilet and bathroom	
Project Location	Old Flacq Road B20, D'Epinay	
Project Owner	Mauritius Cooperative Agricultural Federation Ltd	
Project Contractor		
PROJECT DESCRIPTION		
The project covers a small renovation of the existing toilet at Salespoint D'Epinay and the construction of a new toilet and bathroom for the Mechanisation Unit. The renovation work focuses on improving the current facility to ensure proper hygiene, adequate ventilation, reliable water supply, and safe finishes that support daily operations of the sales team. The new structure for the Mechanisation Unit creates a dedicated facility positioned close to the work area to support operational efficiency and worker welfare. The scope includes building a toilet and bathroom with durable fixtures, reliable plumbing, adequate lighting, and finishes suitable for heavy daily use. The project strengthens workplace sanitation standards and supports compliance with organisational requirements for worker health and safety.		
SCOPE OF WORK		
Construction of two new toilets and one bathroom for Mechanisation Unit • Clear and prepare the identified area for construction. • Build the foundation, walls and roofing using durable materials suited for operational environments. • Install plumbing lines for the toilet and bathroom, including water inlet, waste lines and proper drainage. • Install fixtures including toilet bowl, wash basin, shower point, tap and floor trap. • Apply floor and wall finishes using durable and slip resistant tiles. • Install electrical wiring, switches and lighting fixtures. • Provide a ventilation system to support air circulation.		
PROJECT DELIVERABLES		
1) The project delivers a fully renovated toilet at Salespoint D'Epinay that meets hygiene standards, provides reliable plumbing, offers safe finishes and supports daily operational needs through improved lighting, ventilation and functional fixtures. 2) The project delivers a newly constructed toilet and bathroom for the Mechanisation Unit built with durable materials, functional plumbing and electrical systems, adequate lighting, proper ventilation and waterproof finishes that support worker welfare and operational efficiency.
